

Employers are increasingly considering mandating COVID-19 vaccines as a condition of employment. Jackson & Coker asked physicians their views on the topic in a nation-wide survey. Here are the results.

Have you been vaccinated against COVID-19?

- Almost 9 in 10 (89%) reported being vaccinated.
- 8% said no, and they don't plan to get it.
- 3% said they haven't yet, but they are planning to or may still receive it.

Do you agree with employer mandates for the COVID-19 vaccine?

Of respondents who are employed...

19% reported that their employer is requiring COVID-19 vaccination at this time, but all those said they would have gotten the vaccine regardless

Survey Respondent Profile

- Nearly 800 respondents
- More than 50 specialties
- Representing 49 states
- Women: 34%, Men: 66%

- Younger than 25: >1%
- 25-34: 5%
- 35-44: 13%
- 45-54: 23%
- 55-64: 27%
- 65 and older: 32%
